Unknown Numbers
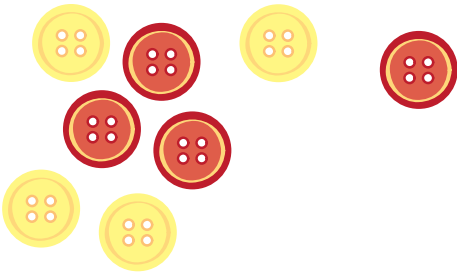

Solve each word problem to find the missing number. Show your work and include an equation.

1) There are 26 pieces of gold and silver at the bottom of a rainbow. If there are 15 gold pieces, how many silver pieces are there?

2) There are 75 red and yellow buttons in a jar. If 25 are yellow, how many buttons are red?

3) There were 55 cheese and pepperoni pizzas ordered for a party. If 20 are cheese, how many are pepperoni?

4) There are 24 sugar and coconut cookies on a tray. If 12 are sugar cookies, how many are coconut cookies?
