

# Visually Subtracting Fractions

Model and solve the following expressions using the following steps:

1. Draw the minuend (the amount being subtracted from).
2. Subtract the subtrahend from the minuend (the amount being subtracted).
3. Complete the difference sentence stem.

$$\frac{9}{11} - \frac{5}{11}$$

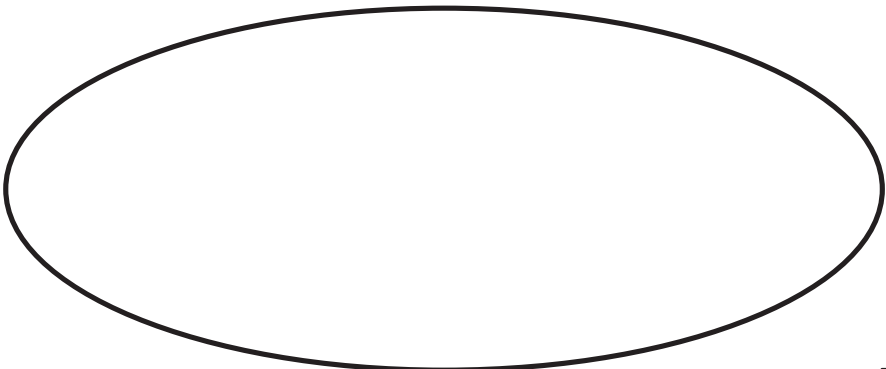

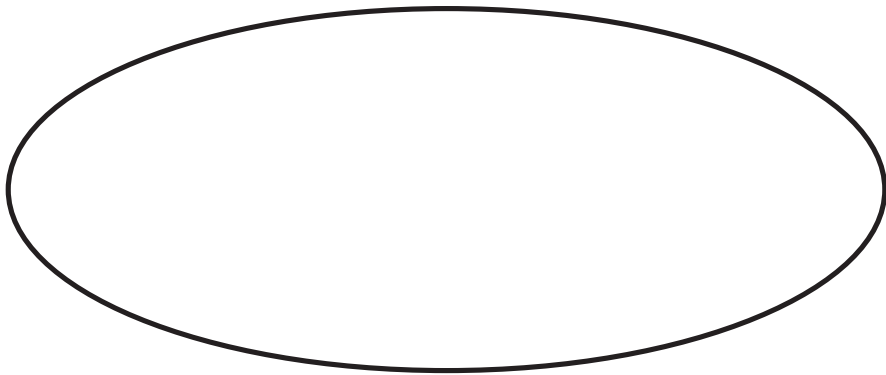

The difference is

$$\frac{4}{11}$$

\_\_\_\_\_.

1)  $\frac{8}{12} - \frac{4}{12}$

The difference is

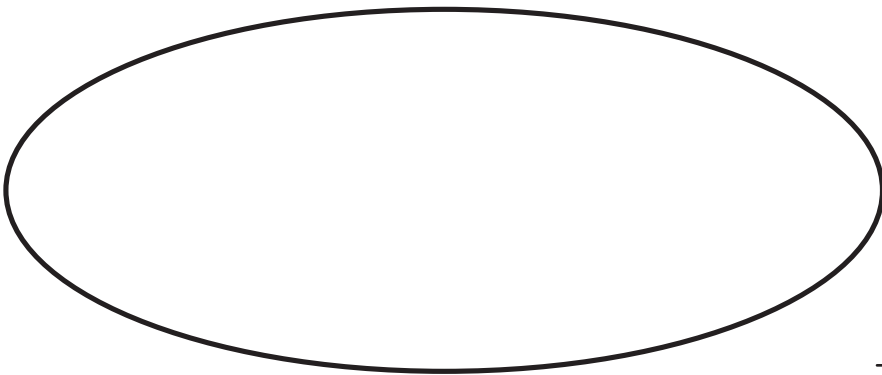

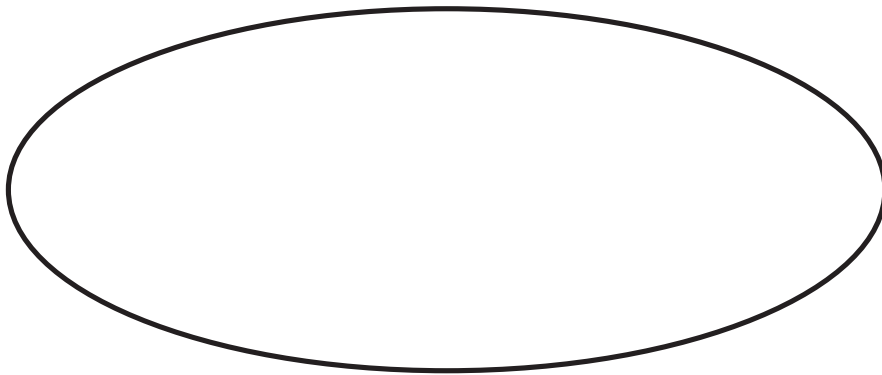

\_\_\_\_\_.
