微 Name $\qquad$ Date $\qquad$
Ms. Martin's class took a survey about pets. The data they collected is represented in the bar graph below.

| 6 |  | (9) |  |
| :---: | :---: | :---: | :---: |
| 5 |  | (a) |  |
| 4 |  | (2) |  |
| 3 |  | (2) | 64 |
| 2 |  | (2) | - 4 |
| 1 |  | (29) | 6 Cl |
|  | Dog | Cat | Fish |

## Questions:

1. How many kids were surveyed in all?
2. The kids who liked dogs the best and the kids who liked cats the best got together to play. How many kids were there in all?
3. The kids who liked cats went swimming, then the kids who liked fish came. How many kids were swimming?
