

What Do We Know About Siblings?

Name _____

Date _____

Mr. Johnson's class took a survey about their siblings. The data they collected is represented in the bar graph below.

Questions:

1. How many kids were surveyed in all?

2. The kids who had one sibling stayed in the classroom while the rest of the kids went out to play. How many kids went out to play?

3. The only children invited the kids with two siblings to sit with them at their lunch table. How many kids were at the lunch table in all?
