

What's the Angle? *

Part 1: Choose the best estimate for the measure of each angle.

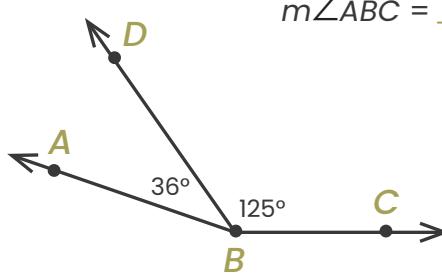

- a. 90°
- b. 110°
- c. 29°
- d. 75°

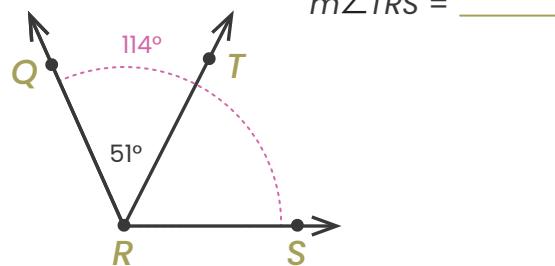

- a. 29°
- b. 75°
- c. 90°
- d. 110°

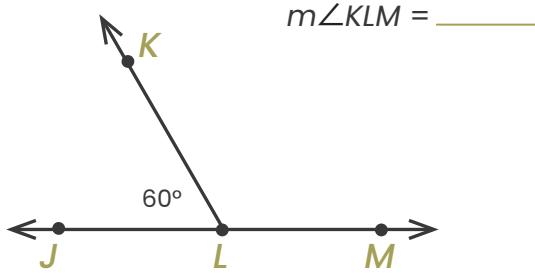

Part 2: Find the angle measure for each problem.

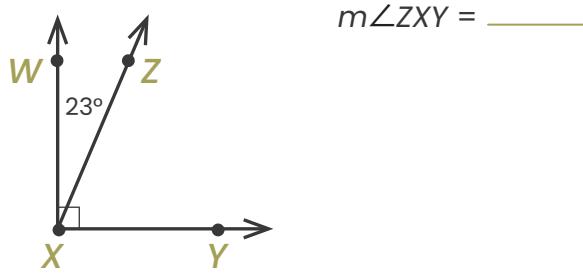

$$m\angle ABC = \underline{\hspace{2cm}}$$

$$m\angle TRS = \underline{\hspace{2cm}}$$

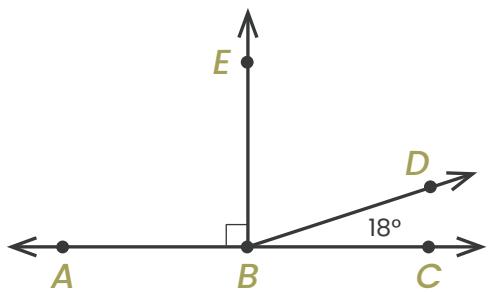

$$m\angle KLM = \underline{\hspace{2cm}}$$

$$m\angle ZXY = \underline{\hspace{2cm}}$$

Part 3: Use the image to help you answer the following questions.

1. Name a right angle. _____

2. What is the measure of $\angle EBD$? _____

3. What is the measure of $\angle ABD$? _____
