

THE PLANETS

Where are they?

All of the planets in the Solar System revolve around the Sun. Some are close to the Sun, while others are farther away. Color in the circle where Venus is on the diagram to the right. Then, cut out the planet image below and add it to your own diagram of the Solar System.

VENUS

“Earth's Twin” and 2nd from the sun

What is the average temperature on Venus?

- a) 850 degrees F
- b) -100 degrees F
- c) 75 degrees F
