

“in” Word Family Puzzle

Cut out all the puzzle pieces with the help of a parent. Say the sound each letter makes aloud. Say the sound the letters “in” make together. Then join the puzzle pieces and blend the sounds of the letters to form a word. Say the word.

Parents: Once your child learns to make the words on this worksheet and other word family puzzle worksheets the words can be glued onto index cards to create flashcards. Pick a card, say the word aloud and ask your child to spell it from memory. Or, turn the tables and have him ask you. Either way it's great spelling practice for kids.
