

My Birthday Shopping

Word Problems Subtraction

Grandma gave me \$75 for my 16th birthday and said I could go shopping. I went to four different shops and bought some cosmetics. Can you help me find out how much money I have left after I bought the four items?

Shop 1

I bought my favorite perfume from the first shop. Can you tell me how much I have left?

Shop 2

Next I purchased a bottle of purple nail polish from the second shop. Now how much money do I have left?

Shop 3

Then I bought a lipstick in a beautiful brown shade from the third shop with the remaining money. Can you tell me how much I have left?

Shop 4

Last I purchased a mascara from the fourth shop. Can you help me find out how much money I have left with me?
