# Write to 100

## How to Play:

Each partner gets their own paper as they race to get to 100 first. Take turns rolling two dice. After each roll, fill in the 100 chart with the sum of the numbers you roll. Count on to each number until you or your partner reach 100.

For example, if you roll an 8 and you already have number 15 on the sheet, you will add 16, 17, 18, 19, 20, 21, 22, and 23 to your chart.
